## Who We Are

More than 35 years ago, a study revealed that Iredell County's biggest need was for supervised adult day care. To meet that need, ElderCenter was established and was later renamed Iredell Adult Day Services. Today, we accommodate adults of all ages who benefit from supervised activities in a community-based setting. As part of our services, we provide participants with two meals a day, a snack, programs and activities, and personalized care.

## Why It Matters

Everyone needs a sense of connection and engagement! That's why we help your loved ones stay active in body, mind, and spirit. Studies from the National Institute on Aging indicate that people with chronic illnesses, physical disabilities, or memory or brain disorders are happier and healthier with social interaction, meaningful activities, nutritious foods, and stress management. That's what we provide to our participants!
